EPOXY

14 SERIES EPOXY	25 SERIES EPOXY	31 SERIES EPOXY
Diamond Glaze is a premium 4 to 1 mix waterbased epoxy for concrete floors.	A premium 2 to 1 mix waterbased epoxy for concrete floors. Fast dry & available in all tint bases.	Conventional 100% solids epoxy for concrete floors. Clear & colors available.

LIQUID GRANITE FLOOR SYSTEM

Liquid Granite is an epoxy floor system with colored paint chips sprinkled into a wet pigmented epoxy. Once the epoxy is dry, it is sealed with either an epoxy, urethane, or polyurethane clear coat. This is a very durable flooring system that is also decorative. It is ideal for residential, commercial & industrial applications.

WATERPROOF DECK SYSTEMS & CONCRETE RESURFACING

AL SYSTEM	MACOAT SYSTEM	2000 SYSTEM
A metal lath reinforced concrete system for plywood roof decks. 1 hour fire rated ICC ES #5416	Fiber lath reinforced flexible cement based system for plywood & concrete.	Monolithic moisture cure urethane system for concrete & wood. Skid resistant with excellent flexibility.
FM SYSTEM	COLOR WASH	IMPRESSIONS
Easy to apply acrylic system over fiberglass mat. Extremely flexible for concrete & plywood decks.	Concrete resurfacing process made of polymerized cement that can be applied in a variety of patterns.	Stamp overlay system for use over concrete. Many colors and patterns are available.

Please Note:

These color chips are produced as accurately as possible, however, paint colors are affected by many factors including lighting, age, type of finish, type of substrate, and adjacent colors. Actual paint colors will vary from these samples. If final appearance is critical, paint should be tested on actual surface before a full application.
